

ANKUR GUPTA

SENIOR SOFTWARE ENGINEER | FULL-STACK

OBJECTIVE

I am a full-stack developer specializing in Ruby on Rails and ReactJS, with extensive experience in designing and building robust web applications. I aim to apply my expertise in full-stack development and problem-solving to contribute to innovative projects and deliver impactful solutions within a dynamic team.

EXPERIENCE

TICKETMASTER INDIA | SENIOR SOFTWARE ENGINEER

Oct 2022 - Present

I specialize in maintaining clean codebases with full test coverage and have effectively managed payment collection projects on time while optimizing system performance. I've tackled complex challenges and continuously improved system efficacy. My experience includes working with technologies like Elasticsearch, GraphQL, EmberJS, MongoDB, Haml, and CoffeeScript.

HAPTIQ(WEBONISE) | SENIOR SOFTWARE DEVELOPER

Jun 2021 – Oct 2022

I have led multiple frontend and backend projects, managing releases and coordinating with DevOps and QA teams for timely delivery. I upgraded Rails versions from 4 to 5 and then to 6, implemented security measures with Brakeman and RuboCop, and integrated OAuth 2.0 OpenID Connect. I also resolved bugs and enhanced functionality in ReactJS and Rails API projects, demonstrating my commitment to code integrity and robust solutions.

AKARUILABS INDIA | SOFTWARE ENGINEER

Mar 2019 – May 2021

At this startup, I developed expertise in Ruby on Rails and ReactJS, managing projects independently and liaising with clients. I performed unit and user acceptance testing, gained experience with MongoDB, and created cryptocurrency tokens using Stellar blockchain for an exchange platform.
